PROFESSIONAL SUMMARY

Computer Science & Engineering student and Full Stack Developer Intern with hands-on experience in web development using HTML5, CSS3, JavaScript, TypeScript and Angular. Experienced in building responsive web applications, e-commerce interfaces and task management systems. Strong foundation in C, C++, Python and Git/GitHub, with a focus on practical development and continuous learning.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript | **Tools & Deployment:** Git, GitHub, VS Code, Vercel

Frontend & Web: HTML5, CSS3, Angular

INTERNSHIP EXPERIENCE

RoboQuess Infotech Pvt. Ltd. — Full Stack Developer Trainee Intern | Jul 2026 – Present

Remote Internship | 6 Months

- Contributed to Full Stack Development training through an Angular-based Task Management System, implementing task creation, editing, deletion, status management, Reactive Forms and form validation.
- Developed and tested ASP.NET Core Web APIs, implementing Controllers, Routing, HTTP methods (GET, POST, PUT, DELETE), CRUD operations and API testing with Swagger.
- Applied client-server architecture using Angular and .NET, working with HTTP requests, API processing, JSON responses and Angular-.NET communication flow.

PROJECTS

1. ShopNow — E-Commerce Website | HTML5, CSS3, JavaScript | [Live Demo](#)

- Developed a responsive e-commerce platform with product discovery, search, filtering, sorting, category browsing and detailed product pages, with responsive desktop/mobile navigation and persistent dark-mode preferences.
- Implemented shopping and checkout flows including cart and quantity management, wishlist, Save for Later, coupons, discounts, dynamic price calculations, address selection, delivery options, payment selection and order confirmation.
- Built order/account management and Warehouse Management features including order tracking, delivery timeline, refund-related workflows, profiles, saved addresses, preferences, notifications, inventory monitoring, low-stock alerts, fulfillment metrics, warehouse capacity and stock-transfer activity; deployed on Vercel.

2. Task Management System — Training Project | Angular, TypeScript, HTML5, CSS3 | [Live Demo](#)

- Developed an Angular-based task management system with complete CRUD functionality for creating, viewing, editing and deleting tasks, along with task status and due-date management, date-picker interaction and input handling.
- Implemented Reactive Forms and custom validation for task name, description, status and due date, with success and delete-confirmation popups to provide clear user feedback and prevent accidental actions.
- Implemented Angular routing with route and query parameters for navigation between task list, details, add-task and edit-task views, and used TaskService with dependency injection for centralized task state and CRUD operations; applied ViewChild and AfterViewInit for description overflow and scrolling behavior.

3. Developer Portfolio Website | Angular, TypeScript, HTML5, CSS3 | [Live Demo](#)

- Developed a personal developer portfolio using Angular and TypeScript to showcase technical skills, projects and professional information.
- Designed a responsive interface for desktop and mobile viewing and deployed the portfolio using Vercel.

EDUCATION

Qualification	Institute	Affiliation	Year / Result
B.Tech — Computer Science & Engineering	Global Group of Institutes, Amritsar, Punjab	IKGPTU, Jalandhar	2023–2027 Pursuing
Class XII	Vaniya Inter College, Muzaffarpur, Bihar	BSEB, Patna	2022 55.2%
Class X	DAV Public School, Muzaffarpur, Bihar	CBSE, New Delhi	2020 57.6%

STRENGTHS

- Quick Learner
- Teamwork
- Problem Solving
- Adaptability

LANGUAGES

- Hindi — Native / Bilingual Proficiency
- English — Professional Working Proficiency

COURSES

- Complete Web Development Course** — Udemy | Hitesh Choudhary
- Full Stack Generative and Agentic AI with Python** — Udemy | Hitesh Choudhary & Piyush Garg

CERTIFICATIONS

- Angular (Complete Guide)** — Udemy
- JavaScript (Beginner to Advanced)** — Udemy
